MADE

- 1 Jenny Walsh (€5.90)  
 2 Karo Art (€9.95)  
 3 Newbridge Silverware (€15)  
 4 Galway Crystal @ Killkenny (€14.95)

ONE OF THE MOST MAGICAL PART OF THE BUSINESS FOR US IS TO SEE FAMILIES COMING BACK EVERY YEAR BECAUSE PICKING THEIR TREE HAS NOW BECOME PART OF THEIR CHRISTMAS TRADITION

It takes eight years for a Christmas tree to grow and the Lynskeys plant three new trees for every one cut down.

have a choice of three types of trees, both shedding and non-shed. Most people say they want a non-shed but when they see our Norway spruce many change their mind because they are full and shapely and irresistible. Once they decide on their tree, they watch it being cut down, the kids can help carry it in and see it go through the netter and they head home already looking forward to coming back next year.

It is so special for us to be part of so many people's Christmas tradition. Long-lasting memories are created which span generations and we are part of this – it couldn't be more special.

**Is there a standout memory for you?** It has to be a couple who picked their tree and then told us that they had just gotten engaged – right out among the trees. They had been coming to us for a few years and decided that the experience was so special to them this was where they wanted to get engaged, so he popped the question. They got married last December and they were heading our way for a photo in the trees but Storm Desmond had other plans. 🌿
